

# Bauhaus – Conversation Menu

New European Bauhaus' objective is to engage **designers, architects, artists, engineers, students** etc. in the work of creating a **climate neutral, sustainable European continent by 2050**.

- 1 What might a sustainable, climate neutral Europe look like in 2050, do you think?**
- 2 How do you imagine everyday life to be in 2050?**
- 3 What do you think we as a community – across Europe – can do, for this to become a reality?**
- 4 What do you consider to be the most important themes and topics that we need to focus on in Europe for all of us to succeed?**

**Name + title**

**A citation of you from your conversation that we may use**

**Your other thoughts & reflections regarding the conversation**
